Sherri Ybarra,
Superintendent of Public Instruction —
I am humbled and honored to serve Idahoans as Superintendent of Public Instruction. Education has always been my focus and passion. With nearly 20 years of experience in all phases of education — from classroom teacher, to principal, and at the administrative level, ...

Accounting

Program Information

The accounting department at the Idaho State Department of Education (SDE) handles the department's internal accounting as well as:

- Federal fund distribution payments for federal programs
- Payments to vendors, contractors, school districts and other educational institutions
- Management of the Superintendent of Public Instruction's Department budget, commonly confused with the Superintendent's Public Schools budget
- Management of the department's fixed asset system and surplus program
- Assisting with state and federal audits
- Liaison to the Office of State Controller's applications used by many of the department's customers

We provide our users with guidance and answer their questions regarding the Grant Reimbursement Application. This application allows school districts, charter schools and other educational entities receiving federal funds a mechanism to electronically request reimbursement.
